

EDDIE BILA

Project Manager | Business Analyst | IT Support Technician | Digital IT Consultant (Freelance)

EXECUTIVE SUMMARY

A dynamic and versatile, results-driven professional with over five years of experience spanning IT, business analysis, learning and development, and business operations optimisation. Proven track record delivering large-scale national programmes for public and private sector clients, enhancing performance across operational, IT support, and project-led environments. Recognised for strong analytical insight, strategic problem-solving, data-driven reporting, and effective leadership, with the ability to transform challenges into practical, scalable solutions. Brings a cross-functional, people-centric approach that builds trusted relationships, fosters open communication, and motivates teams to consistently exceed strategic objectives. Also operates independently as a Freelance Digital IT Consultant, delivering web development, systems support, and processing automation solutions to small and medium businesses.

WORK EXPERIENCE

Learning Project / Programme Manager

Camblish Training Institute | March 2023 – Present

Experienced Learning and Development leader with a proven track record of driving business results through strategic training initiatives.

- Led end-to-end delivery of national learning programme portfolios across multiple provinces for public and private sector clients.
- Managed 400+ learners annually, including a 2,150-learner national UIF LAP project, ensuring timely delivery, compliance, and successful completion.
- Conducted requirements analysis, process mapping, and programme design reviews to improve efficiency and compliance outcomes.
- Integrated LMS platforms, reporting dashboards, and digital tools to enable real-time tracking and data-driven decision-making.
- Managed and coordinated cross-functional project teams, translating programme requirements into operational deliverables and performance measures.
- Oversaw structured reporting, monitoring, and evaluation to ensure portfolio governance and accountability.

Senior Training Coordinator

Camblish Training Institute | July 2022 – March 2023

- Coordinated and managed a portfolio of 50+ SETA-aligned training projects, ensuring compliance with regulatory, contractual, and quality assurance requirements.
- Led learner administration, scheduling, reporting, and documentation using LMS platforms and digital tracking systems.
- Conducted data analysis and performance reporting to support management decision-making and programme optimisation.
- Supported business analysis activities including process reviews, gap analysis, and continuous improvement initiatives.
- Identified project risks, tracked milestones, and collaborated with senior management to implement corrective actions.
- Contributed to national graduation initiatives, ensuring accurate reporting, stakeholder sign-off, and successful project close-out.

- Process Automation

IT Support Technician & Sales Consultant

Camblish Training Institute | November 2021 – July 2022

Driving business success through technology solutions. Skilled IT professional with a unique blend of technical expertise and customer acumen.

- Delivered technical support and troubleshooting services to ensure uninterrupted IT operations.
- Installed, configured, and maintained hardware, software applications, and peripherals.
- Provided end-user support, onboarding, and system access management for staff and learners.
- Analysed client and user needs to recommend appropriate technology solutions.
- Supported IT workshops and training sessions, ensuring systems readiness and functionality.

IT Workshop Assistant

Sedibeng TVET College | July 2021 – October 2021

Results-driven IT professional with expertise in installing, configuring, and maintaining IT frameworks.

- Assisted with IT systems setup, maintenance, and learner support during training delivery.
- Installed and maintained software, updates, and security patches.
- Provided helpdesk support and resolved technical queries efficiently.
- Supported data integrity, backups, and compliance with data protection standards.
- Collaborated with facilitators and IT teams to ensure smooth programme execution.

Freelance Digital IT Consultant

Warm & Easy Blueprints | 2022 – Present

Independently delivers digital and IT consulting services to small and medium businesses alongside full-time employment.

- Designs and builds business websites, landing pages, and digital brand assets for SME clients.
- Provides IT systems support, process automation, and workflow digitisation for small business operations.
- Advises clients on SEO, social media management, and digital brand positioning.
- Manages end-to-end client engagements from discovery through delivery and handover.
